

IASA

### **Anchovy Fillets in Olive Oil** *from Campania, Italy*

IASA anchovies from the Bay of Cetara are cured in sea salt for 12 months, then deboned by hand and preserved in olive oil. These succulent fillets have a luscious sweet complexity with an outstanding balance of salty aroma and briny flavor.

**Uses:** Enjoy simply atop a thick slice of buttered baguette. Use as a delicious garnish for hard-boiled eggs. Essential for the perfect Caesar salad!
